

BLADE VERSA 250

Select Gallonage Smoothbore Nozzle

Overview

BLADE™ VERSA delivers a decisive advantage in structural operations by allowing crews to scale flow from 175 to 250 GPM at 45 PSI without shutting down the line or changing equipment. Built as a complete solution for residential and commercial firegrounds, the quarter-turn transition from solid tight stream to BLADE pattern provides both penetration and coverage, enabling controlled water application and more effective suppression as conditions evolve.

Specifications

	IMPERIAL	METRIC
Target Flow	250 gpm	946 lpm
Target Pressure	45 psi	3 bar
Weight	3.5 lb	1.59 kg
Length	7.6 in.	193.04 mm
Width	4 in.	101.6 mm
Height	4 in.	101.6 mm

Features

- Solid tight pattern with large water droplets
- Hard-coat anodized aluminum construction
- Available with 1.5" NH or 1.5" NPSH threads
- Perfect for high-rise, commercial, and standpipe operations
- NFPA 1960/1964 compliant
- 5-Year Mechanical Warranty

Flow Rates

IMPERIAL	METRIC
250 gpm (45 psi)	946 lpm (bar)
175 gpm (45 psi)	662 lpm (bar)
